

Helifuel Tanks – USA

Swire Energy Services operate the world's largest fleet of transportable aviation fuel tanks, which are designed, manufactured and tested in full compliance with the relevant standards including IMDG/ADR classification and DNV 2.7-1/EN12079/BS7072 frames.

Tank types and designs vary to suit different products and capacities. These include: 1400/1500/1900/2273/2700/4000/4546/20000/33500/520000 stainless steel tanks.

Key Features

- Continual design improvement
- Easy handling with forklift or crane
- Access to vent valve from ground level
- Most designs are stackable for optimum storage
- Three stage closure system standard on outlet assemblies
- Sample take-off point fitted for ease of sampling contents
- 460mm swing bolt-type manlid for easy inspection and cleaning
- Spare parts available globally
- Vent, level gauge and outlet valve options

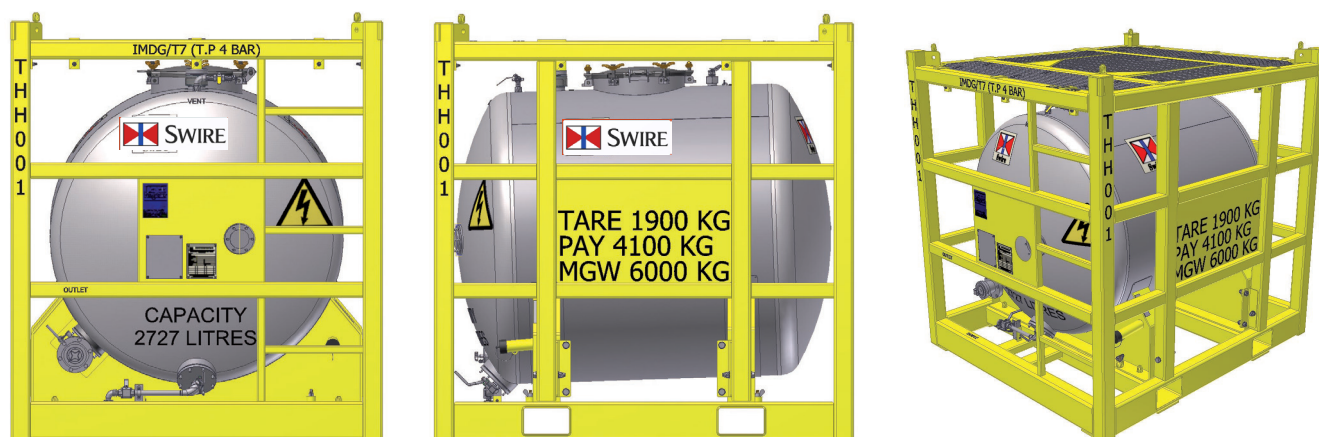

All of our operational, support and design activity is built on ISO 9001:2008.

As you would expect, all of the appropriate units come complete with lifting sets, certified to meet DNV 2.7-1/EN 12079.

Swire Energy Services offers a full range of containers and tanks. Please see our contact details to obtain further information on containers, baskets, half-heights and modular systems.
