

Mini Containers

Swire Energy Services support the world's largest fleet of DNV 2.7-1/EN 12079 cargo carrying units for the offshore energy market.

These are standard sealed containers ideal for the transportation of smaller goods and specifically ideal for palletised chemicals and IBC chemical carriage. Due to our fleet size, these containers are generally available ex-stock and are provided on both short-term and long-term hire.

Key Features

- Range of sizes for all standard applications
- Ex-stock availability for urgent requirements
- Provided with internal swivelled tiedown points to ensure secure transportation of goods and cargo
- Anti-slip roofs for safety during use
- Cargo nets are standard to enhance goods security and safety
- Mid-point shelves are available to increase cargo loading options
- Fixed shelf version available (AMH)
- The units are stackable, reducing lay down area requirements
- The doors are sealed enabling their use with dry cargo

All of our operational, support and design activity is built on ISO 9001:2008.

As you would expect, all of the appropriate units come complete with lifting sets, certified to meet DNV 2.7-1/EN 12079.

Swire Energy Services offers a full range of cargo-carrying units. Please see our contact details to obtain further information on containers, baskets, open-top containers, skips, chemical tanks, half heights and modular systems.

Contact the sales team for more information.

Mini Containers

Dimensions and Weights

Container Type	AMC	AMD	AME	AMF	AMH
