

Closed Containers

Swire Energy Services support the world's largest fleet of DNV 2.7-1/ EN 12079 cargo-carrying units for the offshore energy market. This range of standard sealed containers is ideal for the transportation of large volumes of smaller goods or equipment that is palletized or skid mounted for forklift truck loading.

Due to our operational size, these containers are generally available on very short lead times and are provided on both short-term and long-term hire.

Key Features

- Multiple sizes for all standard applications
- Ex-stock availability for urgent requirements
- Provided with internal swivelled tie-down points to ensure secure transportation of goods and cargo
- Anti-slip roofs for safety during use
- Cargo nets are standard to enhance goods security and stability
- The units are stackable, reducing lay down area requirements
- The doors are sealed enabling their use with dry cargo

All of our operational, support and design activity is built on ISO 9001:2008.

As you would expect, all of the appropriate units come complete with lifting sets, certified to meet DNV 2.7-1/EN 12079.

Swire Energy Services offers a full range of cargo-carrying units. Please see our contact details to obtain further information on containers, baskets, open-top containers, skips, chemical tanks, half heights and modular systems.

Contact the sales team for more information.

Open-Top Containers

Swire Energy Services support the world's largest fleet of DNV 2.7-1/ EN 12079 cargo-carrying units for the offshore energy market. This range of open-top containers is ideal for the transportation of equipment that requires loading by crane or forklift.

Additional protection can be provided by the use of a robust tarpaulin or net fitted to the top of the container after the loading and securing of the equipment.

Due to our operational size, these containers are generally available on very short lead times and are provided on both short-term and long-term hire.

Key Features

- Multiple sizes for all standard applications
- Ex-stock availability for urgent requirements
- Provided with internal swivelled tie-down points to ensure secure transportation of goods and cargo
- Cargo nets are available to enhance goods security and stability
- The units are stackable, reducing lay down area requirements
- Drainage is designed into the unit to minimize the risk of retained water increasing the gross weight of the lift
- Optional roof bows, tarpaulins, door reals and nets

All of our operational, support and design activity is built on ISO 9001:2008.

As you would expect, all of the appropriate units come complete with lifting sets, certified to meet DNV 2.7-1/EN 12079.

Swire Energy Services offers a full range of cargo-carrying units. Please see our contact details to obtain further information on containers, baskets, open-top containers, skips, chemical tanks, half heights and modular systems.
